

ANIK DAS

Frontend Developer | CSE (AI & ML) Student

Bengaluru, India | +91 99452 78128 | anikda9945@gmail.com

PROFESSIONAL SUMMARY

Passionate Frontend Developer and Computer Science Engineering (AI & ML) student with a strong drive for web development, UI/UX design, and modern technologies. Dedicated to building creative, responsive, and user-friendly digital experiences that combine innovation with functionality. Proven ability to turn ideas into interactive websites and applications including image galleries, AI-powered tools, fake news detection systems, and smart web platforms.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML) *Sapthagiri NPS University, Bengaluru*

- Focusing on artificial intelligence, machine learning, and advanced web technologies.

TECHNICAL SKILLS

Programming Languages: C++, C, Python, JavaScript, SQL

Frontend & UI/UX: HTML5, CSS3, DOM Manipulation, Glassmorphism, Responsive Design

Backend & Cloud: Firebase, APIs

Tools & Interests: Git, GitHub, Artificial Intelligence, Machine Learning

EXPERIENCE

Frontend Development Internship

CodeAlpha

- Developed interactive, cross-browser compatible, and highly responsive web interfaces.
- Built real-world applications (e.g., ALPHAPIX Gallery) with dynamic image rendering, search filtering, and user upload systems using JavaScript, HTML, and CSS.

UI/UX Design Internship

CodeAlpha

- Designed intuitive wireframes, application flows, and user-centric mockups.
- Bridged conceptual design aesthetics with functional frontend development.

SELECTED PROJECTS

Smart Civic Maintenance Platform

Firebase, JavaScript, Map APIs

- Engineered a full-stack civic reporting platform allowing users to submit issues with live location tracking.
- Integrated real-time database synchronization and dashboard analytics for SLA monitoring.

ALPHAPIX - Modern Image Gallery

JavaScript, CSS Grid, HTML5

- Built a responsive, dynamic image gallery featuring category filtering, modal views, and user uploads.
- Engineered a robust UI incorporating user score dashboards and interactive workflows.

Futuristic Scientific Calculator

JavaScript, Glassmorphism CSS

- Developed a high-performance web calculator featuring standard and complex scientific operations.
- Implemented a modern, premium "glassmorphism" aesthetic with smooth CSS transitions.
